LIVE FOOTBALL THE SPANISH WAY

A UNIQUE OPPORTUNITY TO EXPERIENCE FOOTBALL IN SPAIN

The Player Selected Experience is an opportunity reserved for players who stand out throughout our international camps, not only for their level, but also for their attitude, commitment, and understanding of the game.

All Player Selected athletes from each campus come together in Spain to take part in a five-day experience where football becomes the central focus of their daily routine.

During this time, they train in professional environments, share the pitch with players from different countries, and are exposed to a methodology that emphasizes decision-making, game understanding, and technical development.

PLAYER SELECTED EXPERIENCE

LIVE FOOTBALL THE SPANISH WAY

The experience takes place in high-level training facilities, where players can better understand how professional structures work. Training sessions are designed to reflect the intensity and detail of academy-level football, allowing players to adapt to new rhythms and demands.

Alongside the training, players will also have the opportunity to visit and train in professional stadiums and attend an official LaLiga match, experiencing the atmosphere of Spanish football from the inside. These moments complement the sporting side of the program and help players connect what they learn on the pitch with the reality of the professional game.

VISIT TO THE SPORTS CITY OF VALENCIA CF - 2025

The Player Selected Experience is a short but complete introduction to football in Spain, offering players a different perspective on their development and on the game itself.

ELITE PROGRAM

The Elite Program offers players the opportunity to experience football in Spain through a structured and immersive environment, combining training, competition, and cultural exposure over five days.

Within the program, there are two different pathways: Standard and Premium, both designed to provide a complete football experience in Spain.

JOSE GAYÀ - VALENCIA CF PLAYER

The **Standard Program** takes place in the Levante area and includes training sessions in official club facilities in Valencia, Villarreal, and Levante. Players are exposed to professional methodologies while experiencing the daily environment of high-level academies. Alongside the training, the program includes stadium visits, attendance at an official LaLiga match, and organized activities that combine football with local tourism.

The **Premium Program** expands this structure by adding two of the most important football cities in the world: Barcelona and Madrid. In addition to the full Levante experience, players gain access to further training environments and stadium visits in these cities, offering a broader view of Spanish football across different contexts.

Both pathways are designed to give players a complete understanding of the game, combining daily training with direct exposure to Spanish professional football environment.
